Medical Terminology

If you do not already have a solid understanding of medical terminology, it is also strongly recommended that you complete a medical terminology self-study course prior to the start of your Boot Camp.

E-Learning courses – HCPRO offers a 16-module e-learning library on Anatomy & Physiology. The courses are ideal for those who have a basic understanding but would like to brush up on their skills. To place an order use the link below or contact our Customer Service department at 800-780-0584.

Workbook – *Medical Terminology for Health Professions, 7th Edition* by Ann Ehrlich and Carol L. Schroeder offers a comprehensive guide for the beginner. The ISBN number is 1133687318. The book is available on Amazon.com and may also be available from one of your local bookstores. Our course participants who do not have a strong background in medical terminology typically find this book extremely helpful.

Lunch

We typically provide coffee in the morning, and drinks and snacks in the afternoon. Everyone is on their own for lunch. Note that many hotels do not have restaurants on-site. If you are flying to the course, we generally recommend renting a car.

Dress

Business attire is not necessary. Please dress comfortably. Also, we find that the classrooms are sometimes on the cool side, even during the warmer months. You may be more comfortable if you bring a sweater or sweatshirt in case you get cold.
