

Agenda

Risk Adjustment Coding and Documentation Boot Camp

Module 1: Introduction to CMS Reimbursement	1
• Summary of Medicare Parts A-D	
• Inpatient Prospective System (IPPS)	
• Outpatient Prospective System (OPPS)	
• Medicare Advantage Plans	
• Prescription Drug Coverage	
Module 2: Diagnosis Selection and Documentation.....	2
• Sources of authority for ICD-10-CM coding	
• Documentation sources	
• Diagnosis coding – Inpatient services	
• Diagnosis coding – Outpatient/professional services	
• Uncertain diagnoses	
• Signs/symptoms	
• Comparative/contrasting diagnoses	
• Acute and chronic conditions	
• Combination codes	
• ICD-10-CM conventions	
○ Excludes notes	
○ Laterality	
Module 3: Introduction to Risk Adjustment.....	3
• Risk Adjustment Models	
○ HHS- HCCs	
○ Adjusted Clinical Groups	
○ CDPS	
○ DRGs	
○ CMS-HCCs	
• Demographic Variables	
• Hierarchical Condition Categories	
○ Applicable Settings	
○ Approved Providers	
○ Hierarchies	
○ Disease & Disabled Interactions	
• Medicare Advantage Plans	
• Prescription Drug Coverage	

Module 4: The “Hierarchies”	4
Module 5: Disease Interactions.....	5
• Roles of Disease Interactions in Risk Adjustment	
○ Congestive heart failure/Diabetes mellitus	
○ Congestive heart failure/Renal disease	
○ Cancer/Immune disorders	
○ Congestive heart failure and COPD/Cystic fibrosis	
○ Respirator dependence and COPD/Cystic fibrosis	
○ Heart Failure/Specified cardiac arrhythmias	
○ Substance abuse/Psychiatric disorders	
○ Sepsis/Pressure ulcers	
○ Sepsis/Artificial openings	
○ Pressure ulcers/Artificial openings	
○ COPD/Cystic fibrosis and Aspiration/bacterial pneumonias	
○ Disabled disease interactions	
Module 6: Risk Adjustment Data Validation Audits (RADV).....	6
• Historical necessity for RADV audits	
○ OIG Work Plan 2015-2016	
○ Fraud Investigations	
○ What is a RADV audit?	
○ Impacts of RADV audits	
○ RADV submission requirements/checklists	
○ Querying for clinical validity	
○ Internal auditing/reviews
