Pre-Conference OCTOBER 13–14, 2019

*Medicare Boot Camp®—Utilization Review
Version*

Medicare Boot Camp—Utilization Review Version is an intensive two-day course focusing on the Medicare regulatory requirements for patient status and the role of the utilization review (UR) committee.

Managing patient status plays a critical role in proper compliance, correct reimbursement, and stabilizing inpatient payments for the hospital. In 2019, CMS made significant changes to the inpatient-only list and continues to change its strategies for auditing patient status. Don't become a target or leave money on the table—ensure the UR committee is ready to implement and leverage the regulatory requirements.

Post-Conference OCTOBER 17–18, 2019

*Medicare Boot Camp®—Audits, Appeals, and
Denials Version*

Get expert guidance on preventing denials and focusing appeals efforts for success. The evolution of reimbursement models and uncertainty regarding healthcare laws mean that to keep the doors open, organizations can't afford to write off appealable denials. Organizations need sound, practical information on overturning denials. **Medicare Boot Camp®—Audits, Appeals, and Denials Version** is your key to proven strategies for success and will answer all of your questions on denials management and appeals processes.

Post-Conference OCTOBER 17–18, 2019

*Medicare Boot Camp®—Provider-Based
Departments Version*

The **Medicare Boot Camp—Provider-Based Departments Version** provides education on attestations, on- and off-campus determinations, enrollment, billing, and reimbursement. This boot camp will provide brand new insight for understanding hospital outpatient department billing and reimbursement in an ever-changing regulatory landscape.

Speakers subject to change

“

The conference was excellent. It exceeded my expectations. The speakers were knowledgeable of their respective subject matter. Most provided great reference material and practical information on how to apply the information and improve processes.

Timely topics presented by experienced, well informed and subject matter experts!

I will definitely attend next year and have already asked my chief medical officer to come with me.

THIS IS THE FIRST CONFERENCE I HAVE BEEN ABLE TO ATTEND IN A WHILE. IT DID NOT DISAPPOINT! ALL OF THE SPEAKERS/ PRESENTERS WERE VERY KNOWLEDGEABLE.

The best, most pertinent conference I have attended yet related to my job duties. I operate in a unique role, director of clinical performance, which includes CDI, HCC, UR, clinical denials, clinical analytics and OPPE. This conference actually addressed each area, proficiently, with excellence. I will certainly plan to attend next year, and will share the message with my colleagues. Thank you NAHRI!
